

# Building great projects together

---

**Education**

---

**[builtbyitc.com](https://builtbyitc.com)**

**We are committed to delivering a hassle free project. Here is how we will do it:**

**Minimum disruption to your day to day operations** - You will benefit from logistical solutions that fully consider the need for business continuity.

**Your priorities understood and communicated** - All site operatives will watch a bespoke video highlighting your expectations and key needs.

**Your team will benefit from buildability advice and construction expertise** - We will work collaboratively with your professional team and our sub-contractors to ensure that a successful, quality project is delivered.

**Clear, honest and open communication** - Your project will be assigned an ITC Director to oversee the team and provide you with a direct route of communication via regular meetings.

**User friendly operations and maintenance manuals** - You will receive a comprehensive manual ahead of practical completion to provide end users with a timely induction period.

## You can put your trust in us.

Our business is solidly founded on security and capability, with all operations, systems and teams aligned to ensure consistency of delivery on every project.

### Our Projects

ITC has been successfully building great projects for over 25 years; our experience in refurbishment and fit-out means that we know how to create a space that works for you - whether that's a commercial, healthcare, education, leisure, or public sector environment.

We want you to have an exceptional experience working with us, and this starts with us finding out your priorities from the start and ensuring this is communicated throughout the supply chain. We ensure that every environment we construct exceeds your expectations and that your experience working with ITC is second to none.

**“Given our experience with ITC we would have no hesitation in recommending them for a similar HE environment.”**

Roger Tuke |

# Building great learning environments together

Over the years we have developed a reputation for excellence within the education sector. We understand the unique challenges that comes with construction in this sector, and work with our clients to minimise disruption and meet completion deadlines, working over phased periods in the academic calendar.

Our expertise in this sector has seen us deliver refurbishment and fit out services for schools, colleges and universities, many of which are repeat clients.

We excel in creating spaces that are vibrant and inspirational for students and staff, that facilitate high standards of learning and teaching. As a result, our portfolio in this sector is always growing and has seen us working on a variety of learning environments including classrooms, laboratories, lecture theatres, libraries, student accommodation, gyms and much more.
